McDonald's in Walmart Public Wi-Fi Service Retrofit Order Form

Use this order form to request the installation of Wi-Fi service into a McDonald's in Walmart restaurant where AT&T Wi-Fi service is installed. The McDonald's Walmart team has obtained approval to install public Wi-Fi in Walmart locations.

Installing Wi-Fi service entails the installation of one or more Wireless Access Points (WAP) in such a way as to provide Wi-Fi coverage to the McDonald's in Walmart customer dining area. The WAP is generally installed in the seating area above the drop ceiling. A cable that provides both power and data is run from the WAP to AT&T Wi-Fi equipment in the McDonald's in Walmart back office area. There is no interruption to connectivity during the installation.
